Do good with every search

With the search engine revenues we support projects that are developing solutions for the 17 UN Sustainable Development Goals.

GOOD – The better search on the internet

-  **Better data protection and more online privacy**
We reduce your digital footprint. All search requests are anonymous and your data is protected.
-  **Climate protection**
Searching with GOOD leaves no carbon footprint. We also support projects that are committed to climate protection.
-  **100% Non-Profit**
As a social enterprise, we operate on a non-profit basis. The charitable foundation Good Impact holds 100% of the company shares.
-  **Trust and transparency**
We work to the highest social and environmental standards and are a certified B Corporation. We disclose our revenues and how we allocate our funds to each individual project.
-  **Quality and reliability**
Our partnership with Bing guarantees high quality search results.
-  **Social Entrepreneurship**
In particular, we support projects that address social challenges with innovative solutions and entrepreneurial means.

Together with you we want to shape a better future!

Use GOOD on your smartphone or laptop and **tell your friends** or colleagues about it.

Take action and promote the use of **GOOD as the standard** search wherever you work, study or spend your free time!

Contact us to see how we can most effectively **establish GOOD** in your environment.
