4-1	Leverage Can we make a difference with our financial support, media work or mentoring? Is the project still young or is it at a critical stage of development? Does the project benefit from the additional visibility?	9,0	SitN'Skate would like to establish itself in other German cities in the long term. Through GOOD's media work, there is a chance to make the project better known, to find further staff support and advocates, and possibly to take off in even more German cities.
4-2	<b>Good Timing</b> Is there a specific occasion, such as an ongoing crowdfunding or media campaign, that we can support? Is the subject particularly topical? Is the type of solution a gap in our portfolio?	8,0	There is no specific reason for the support at this point in time. However, the summer period is the most active time for the project with many different events and activities.
4-3	<b>Community Engagement</b> Is the project connected to a region where the GOOD community is strongly represented? Was it recommended or honoured by the impact community? Was it selected through a community vote?	8,0	The project has had our attention for some time and has therefore been on our watch list. The strong connection to Germany is of great interest to us and our community.

Part C	Explanation	
	Scorecard	17 Goals
Method	The scorecard consists of 4 sections of three questions each, all equally weighted. It reflects the aspects which we consider to be most important. The choice of criteria is explicitly intended to encourage reflection. For example, a project is not necessarily less valuable if it scores lower in the "Planet" category, as not every project aims to protect our planet. Nevertheless, the distinction between People and Planet helps to better understand the core objectives of a project, which cannot be described by the SDGsa lone. In the context of sustainability, it is often referred to people, planet and profit, or progress, or prosperity. For us, the third "P" clearly is integral part of the People dimension and if furthermore reflected in the section "Gamechanger" where we analyze the power of a project to drive social change.	We link all the projects we support to the 17 SDGs. The scorecard is designed in such a way that solutions that contribute to a large number of SDGs tend to score significantly higher than those narrowly focused on only one or very few SDGs (like e.g. a wind park in the Western hemisphere). We weight the SDGs by awarding 1 to 3 stars for each of the SDGs to which the project makes the most relevant contribution, for a maximum total of 10.
Legend	The evaluation takes place on a scale of 0 to 10 points and is converted into percentages in the chart on the GOOD website. To what extent does the respective scorecard question apply:	
	0 not at all ("Kick-out criteria")	
	1 almost not (10%)	
	2 not really (20%)	
	3 only to a very limited extent (30%)	
	4 to a certain extent (40%)	
	5 to a good extent (50%)	
	6 to the majority (60%)	
	7 to the great majority (70%)	
	8 almost entirely (80%)	
	9 entirely (90%)	
	10 exceptionally (gamechanger) (100%)
